## SECTION A: DDO Obligations

The following questions may assist Australian Unity in meeting its regulatory obligations by determining whether this financial product is being offered to the stated target market. This section is only required if you are investing into a new Fund. If you are making an additional application into a Fund you already hold units in, please proceed to Section B.

The below only needs to be answered where you are a direct [retail] investor (i.e. does not apply to indirect or intermediated investments such as those made by platforms, custodians, etc).

### Was this investment made based on personal advice received from your financial adviser?

Yes - please ensure that details of your financial adviser are completed in section B

No - please complete the questions below:

**Please read and answer the following questions carefully:** It is important for you to consider if the fund you are applying to invest in is in line with your needs and objectives for the portion of your investment portfolio that you intend to invest in this fund. In other words, the questions below should be answered having regard to what you are seeking from this particular investment - not what you may be seeking more generally from your overall investment portfolio as a whole.

All financial products provide different features, objectives, risks and return profiles.

You can understand more about the specific objectives and outcomes that the fund seeks to accomplish and to determine whether the fund is appropriate for your needs by consulting the fund's PDS and [Target Market Determination](#).

The following questions assist the issuer in meeting its regulatory obligations by enabling it to assess whether the selected fund is being offered to the stated target market. We reserve the right to refuse your application.

### A. What is your primary investment objective in relation to this investment? (select only one option)

**Note:** To confirm if you are investing into a fund that is aligned with your investment objectives, please consult the "Consumer's investment objective" section of the Fund's [Target Market Determination](#).

#### You are seeking an investment which provides Capital Growth

Capital Growth, also known as capital appreciation or capital gain, refers to an increase in the value of an asset over time. Capital Growth is not guaranteed, and the value of an investment can also decrease, resulting in capital losses. You should consider the amount of risk you are willing to accept to achieve a capital growth, (or loss) outcome. *If you are primarily seeking capital growth with some income, please select Capital Growth for Question A, and Yes for Question B.*

#### You are seeking an investment which provides Capital Preservation

A Capital Preservation strategy is a strategy employed by certain types of investment funds with the primary objective of protecting the capital invested. Generally, funds designed to provide capital preservation have a lower risk profile and are less volatile than growth investments. You should consider if you are willing to accept lower returns (growth or income) as a result of choosing a fund with a lower risk profile.

#### You are seeking an investment which provides Income Distribution

Income Distribution refers to the income generated from the assets within a fund that is regularly paid out or distributed to investors periodically. The level of income generated will typically change each period and there is no guarantee of income being available each period.

**B. Are you seeking a source of supplemental income (which may not be regular or recurrent) in addition to the above investment objective?** (select only one option)

**Note:** If your primary objective is Capital Growth or Capital Preservation, but you are also seeking the potential for income supplemental to those objectives, select 'Yes'. If Income Distribution is your primary investment objective, please select Income Distribution in Question A, and 'No' for Question B.

Yes

No

**C. What is your investment timeframe in relation to this investment?** (select only one option)

**Note:** To ensure you are investing into an appropriate fund that is aligned with your investment timeframe, please consult the "Consumer's investment timeframe" section of the Fund's [Target Market Determination](#).

Equal to 7 years or more (i.e. Long term)

Equal to 5 years but less than 7 years (i.e. Medium to long term)

More than 2 years but less than 5 years (i.e. Medium term)

Up to and including 2 years (i.e. Short term)

**D. Under normal circumstances, within what period do you expect to be able to access your funds for this investment?** (select only one option)

**Note:** Not all funds will provide you with access to your capital in line with your expectations. To ensure you are investing into a fund with appropriate withdrawal rights for your needs, please consult the "Consumer's need to access capital" section of the Fund's [Target Market Determination](#).

At issuer's discretion

Within ten years of the request

Within five years of the request

Within one year of the request

Within three months of the request

Within one month of the request

Within one week of the request

**E. In relation to this investment, which investment risk and return profile best describes you?** (select only one option)

**Note:** The fund you are investing into is only suitable for a set of consumers with a specific risk and return profile. To ensure you are investing into a fund in line with your risk and return profile, please consult the "Consumer's Risk (ability to bear loss) and Return profile" section of the Fund's [Target Market Determination](#).

We note again, that this question is in relation to this investment in particular, and not to your overall risk and return profile. In other words, what role are you expecting the fund to play in your overall portfolio.

**I am seeking a fund with a low risk and return profile:**

You are looking for an investment that is low risk in nature (e.g. you have the ability to tolerate **up to one negative return over a 20-year period** and you are comfortable with a low target return from this investment. Funds designed to provide low risk and return typically provide capital preservation and invest in cash or cash like investments).

**I am seeking a fund with a medium risk and return profile:**

You are looking for an investment that is moderate or medium risk in nature (e.g. you have the ability to tolerate **up to four negative returns over a 20-year period** and you are comfortable with a moderate target return from this investment. Funds designed to provide a medium risk and return are typically invested in defensive assets, such as fixed income products).

**I am seeking a fund with a high risk and return profile:**

You are looking for an investment that is higher risk in nature (e.g. you have the ability to tolerate **up to six negative returns over a 20-year period** in order to achieve a higher target return from this investment. Funds with a high risk and return are typically invested in growth assets which include shares and property investments).

**I am seeking a fund with a very high risk and return profile:**

You are looking for an investment that is very high risk in nature (e.g. you have the ability to tolerate **six or more negative returns over a 20-year period** as you are seeking to maximise returns and you can accept higher potential losses. Products with Very High risk and return are typically higher conviction portfolio such as concentrated share funds, hedge funds and other growth alternative assets).

**I am seeking a fund with an extremely high risk and return:**

You are looking for an investment that is extremely high risk in nature (e.g. you can **accept significant volatility and losses** as you are **seeking to obtain accelerated returns** (potentially in a short timeframe). Products with an extremely high risk and return profile are typically speculative investments in niche asset classes such as crypto assets).

**F. What percentage of your total investable assets are you directing into this fund (i.e. the total assets you have available for investment, excluding your residential home)? (select only one option)**

**Note:** The fund you are investing into is only suitable for a certain proportion of a consumer's total portfolio. To ensure the allocation in relation to your total investable assets is appropriate, please consult the "Consumer's intended product use" section of the Fund's [Target Market Determination](#).

If you intend to direct a higher percentage of your investable assets in the fund than specified in the [Target Market Determination](#), we recommend that you seek professional financial advice prior to applying to invest in the fund.

Satellite allocation (up to 10%)

Minor allocation (up to 25%)

Core component (up to 50%)

Major allocation (up to 75%)

Solution/Standalone (up to 100%)
