Investment objective

To achieve capital growth over the medium to long term and provide a total return higher than the return of its benchmark, by investing in a range of investments across the major asset classes.

Investment strategy

The IOOF WealthBuilder Balanced Fund (Fund) invests in a broad range of investments including Australian and international shares and fixed interest securities, Australian and international listed property securities and cash.

Due to the growth orientation of the Fund, it has a greater weighting towards traditional growth assets such as shares and property, and a lesser weighting towards the lower risk defensive assets such as cash and fixed interest.

The Fund is authorised to utilise approved derivative instruments, subject to the specific restriction that derivative instruments cannot be used to establish asset allocation positions outside the approved ranges or to gear portfolio exposure. When used for investment purposes, no more than 30% of the Fund can be exposed to derivative instruments as determined by their market equivalent exposure.

The IOOF WealthBuilder Balanced Fund does not hedge against foreign exchange movements, although the underlying unit trusts in which the Fund invests may do so.

- Total management costs include the annual management fee and estimated performance fees. When money moves in or out of a
 WealthBuilder investment option (or Fund), you may incur transaction costs (buy/sell spreads) which are included in the entry and exit price of
 the applicable Fund you choose. Fund expense recoveries (if applicable) will be charged in addition to total management costs. Investor advice
 fees may apply depending on what arrangement investors have negotiated with their financial adviser. Please refer to the latest PDS or
 australianunity.com.au/aulbl-wealthbuilder for further information on fees and costs.
- 2. Performance is net of management costs, expenses and tax. Performance is based on exit price to exit price for the period. Management costs, tax and other expenses are accounted for in the exit price. Past performance is not a reliable indicator of future performance.
