

Announcement

11 October 2022

Pro-D High Growth Fund (AUFM Managed Fund No. 1) - ARSN 160 420 986

Change in buy spread/sell spread

As of 30 September 2022, we have updated the buy spread/sell spread for the below fund (Fund):

Fund name	APIR	Previous buy spread/sell spread	Current buy spread/sell spread
Pro-D High Growth Fund	AUS0064AU	0.20%/0.20%	0.10%/0.10%

The buy spread/sell spread aims to ensure that existing investors don't bear costs incurred by the Fund due to investor applications or redemptions.

- A buy spread is an extra cost applied on entry to the Fund. It is an estimate of the costs that the Fund incurs (such as brokerage, agent fees, legal fees, stamp duty and taxes) when buying additional assets due to an investor's application.
- A sell spread is a cost applied on exit from the Fund. It is the Fund's estimate of the costs that the Fund incurs when selling-down assets to pay investor redemptions.
- The buy spread/sell spread is not paid to us, but is retained in the Fund to cover those transaction costs; and
- The buy spread is not applied to the reinvestment of distributions.

We may change the buy spread/sell spread from time to time without prior notice. If the buy spread/sell spread changes, we will notify you via our website www.australianunity.com.au/wealth.

What you need to do

It is important that before you make a decision to invest, switch (if applicable) or withdraw from one of our funds, please ensure you check our website for the most up to date buy spread /sell spread.
